

HENDERSON + HARDY

DENTAL PRACTICE LIMITED

To all Patients

Everyone at Henderson & Hardy wishes to re-assure all our patients that we are still open and available to you during these heightened times and the Coronavirus/COVID19 epidemic.

We are still undertaking routine examinations and diagnosis, treatment of tooth decay, dental abscesses and infections of the mouth as well as any emergency treatment for broken teeth, lost fillings, crowns, bridges etc.

Our Hygienists are still available to undertake hand scaling of the teeth but we are avoiding using the Ultrasonic scaler and polishers as we try to reduce exposure to aerosol in the surgeries.

Any routine treatment that is diagnosed will be attended to in a timely fashion after the scare has settled down and we will note this and contact patients to appoint this at that time.

We have always been strict with our cross-infection control procedures and sterilisation of all equipment and the surgeries continues to be of the highest standards. We are employing even greater surface sterilisation of all public areas such as the waiting room and rest-rooms.

If you wish to postpone your appointment just now then that is quite alright but we are available to you if you feel comfortable visiting us just now.

Wishing you all continued good health

Lorraine, Debbie, Chris and all the team

3 Rubislaw Place, Aberdeen, AB10 1XN.
